

Daniel Janusz
president of the board

He registered his first business in 1991 when he was still in high school. A graduate of the University of Agriculture in Wrocław, in the field of agriculture. From the beginning of his professional career he has been associated with the agricultural industry. He gained experience in the construction of steel structures for over two years in the construction of halls for logistics warehouses for Mercedes-Benz in Germersheim. After completing his studies, he worked as a manager of an animal farm at Agro-TaK Zagrodno. He developed his trade skills and knowledge of negotiation techniques while working for Avita, Anek and Promleko Sp. z o.o. In 2002 he founded the FEERUM Daniel Janusz company.

In 2002, he also built the first drying machine based on his own documentation. After five years, FEERUM was transformed into a joint-stock company, and Daniel Janusz took the position of the president of the board. Daniel Janusz also holds the position of the president of the board at DanMag Sp. z o.o. from 2014, and from 2015 also at Feerum Yellow Energy Sp. z o.o. He is fluent in Russian.

He actively participates in the development of new projects and improvement of products from the company's portfolio. Often, his original ideas are the work basis for designers when designing and implementing innovative solutions. Daniel Janusz devotes much attention to the daily work of the Research and Development Center, for example during the cereal drying process.

Piotr Wielesik
